

Parsa Faramarzi

Shiraz, Fars Province, Iran • Postal Code: 7196844759 • (+98) 9015585893 • pfaramazi@gmail.com • LinkedIn: [linkedin.com/in/parsafaramarzi/](https://www.linkedin.com/in/parsafaramarzi/) • GitHub: github.com/parsafaramarzi

PROFILE SUMMARY

Aspiring AI researcher specializing in machine learning, deep learning, and computer vision. Eager to advance expertise through as an AI developer/Data Scientist.

- Proficient in **Python**, and average experience with **Java**, and **C++**, with hands-on experience developing AI models and maintaining a GitHub portfolio of machine learning projects.
 - Preparing a review paper and original research on **Synthetic Aperture Radar (SAR) Automatic Target Recognition** for peer-reviewed publication.
 - Achieved **IELTS score of 8.0** (C1 level), ensuring effective communication and collaboration in international academic settings.
 - Two years as a **Civil Structural Electrician**, honing technical problem-solving and teamwork under high-pressure conditions.
-

EDUCATION

Master of Science in Artificial Intelligence and Robotics

Apadana Institute of Higher Education, Shiraz, Iran

2023 – Present

- Thesis: In progress, focusing on Synthetic Aperture Radar (SAR) Automatic Target Recognition using AI for remote sensing applications.
- Relevant Coursework: Natural Language Processing, Evolutionary Computing, Advanced AI (Reinforcement Learning), Decision Support Systems, Fuzzy Systems, Machine Learning, Neural Networks, Stochastic Processes.

Bachelor of Science in Computer Engineering (Software Engineering)

Azad University, Shiraz, Iran

2018 – 2023

- Relevant Coursework: Data Structures and Algorithm Design, Artificial Intelligence and Expert Systems, Fundamentals of Data Mining, Theory of Languages and Automata, Principles of Compiler Design, Software Engineering, Operating Systems, Computer Networks, Database Systems and Implementation, Discrete Mathematics and Engineering Mathematics, Signals and Systems, Programming Language Design.

RESEARCH AND PROJECTS

- **AI/ML Project Portfolio** (GitHub: github.com/parsafaramarzi) (2018 – Present)
 - Developed multiple AI models, including classification and regression systems, using Python and frameworks like TensorFlow.
 - Replicated published research papers to deepen understanding of deep learning algorithms, with documented code and results on GitHub.

CERTIFICATIONS

- **Machine Learning, South Industrial Management Institute (SIMI), 2025**
 - Strengthened expertise in supervised and unsupervised learning techniques for AI model development.
- **Python Programming, Maktabkhoone, 2025**
 - Developed advanced Python skills for AI and machine learning model implementation.
- **Several Sports Certificates:**
 - Official Wushu Taolu 3rd degree Jury from the federation
 - Certificates of taolu workshops
 - National Competition Certificates

SKILLS

- | | |
|--------------|----------------|
| • Python | • Plotly |
| • HTML5 | • scikit-learn |
| • CSS3 | • PyTorch |
| • JavaScript | • TensorFlow |
| • NumPy | • Keras |
| • SciPy | • OpenCV |
| • Pandas | • Git |
| • Matplotlib | • GitHub |

Other Achievements:

- Achieved IELTS score of **8.0 (C1 level)**, demonstrating strong proficiency in cross-cultural communication necessary for international academic settings.
- Awarded **multiple national-level medals in Wushu**, reflecting exceptional discipline, sustained commitment, and ability to perform under high-pressure conditions.
- Secured **2nd place** in a national English Olympiad.
